

# Dental On Hold Messaging

**Get the word out while they're holding...**

Your dental practice may have all the latest in-office tools that best manage your patients' dental care, but what about tools to manage patients outside of the office?

What do your patients hear when you put them on hold?

Instead of playing annoying music, why not take advantage of the opportunity to play professional messages to improve communications with patients. You'd be amazed how much information you can deliver in just a few short minutes. For as little as **\$120**, you could own the **Voice WAV™** today.

*We take technology to task.™*

Call us at (289) 632-2338 or visit: <http://www.tastecinc.com/on-hold-messaging.html>
